

We're America's Small Business Owners... And We're Watching You

The Job Creators Network represents nearly 150,000 small business owners. More than 90 million Americans depend on the success of small business—they're your friends, neighbors, and constituents. They have benefited from the Tax Cuts and Jobs Act and a loosening of oppressive government red tape. Now is not the time to go backwards with higher taxes and more regulation that will only hurt jobs, growth, and economic prosperity.

Our message to the new Congress? We're watching you. If you move to hurt small business and the American Dream, you'll hear from us.
