

Personalized Healthcare

Your Health. Your Doctor. Your Wallet. Your Choice.

More than a year ago, the Job Creators Network Foundation partnered with Physicians for Reform to conduct the largest market research healthcare study involving more than 25,000 Americans. We've developed a framework for healthcare reform from those inputs that will repair, restore and improve the patient-doctor relationship, as well as remove DC bureaucrats and politicians from the exam room. Many of these ideas are contained in the Trump administration's new healthcare plan, and we support this move towards a more transparent, cost effective, personalized system that puts patients first, including these key aspects:

Better Care:

- ✓ **Protecting you if you get sick, have a pre-existing condition, or need financial help** by providing better options, including plans that cover the doctors you need to get and stay healthy.
- ✓ **Modernizing your healthcare and coverage** with personalized medicine, including telehealth and plans that help you stay healthy and take care of you when you are sick.

More Choice:

- ✓ **Empowering you to choose a personal doctor directly**, who is independent of your insurance coverage and can advocate for the care you need.
- ✓ **Keeping your health coverage and doctors when you change or lose your job** by giving you more control over your healthcare dollars and employer benefits.

Lower Prices:

- ✓ **Eliminating your risk of surprise medical bills** with price and coverage transparency.
- ✓ **Saving you money on healthcare and drugs** with price transparency for easy comparison shopping, more choices for health coverage, ending unnecessary tests and procedures that increase the costs of care and allowing you to benefit financially when you choose lower cost care.

The Job Creators Network Foundation and Physicians for Reform are excited to see the Trump administration move these ideas forward and call on Congress to adopt this innovative framework for healthcare reform. For more details go to HealthcareForYou.com.
